

Notice to:

Municipal District of Fairview No. 136 Hamlet Utility Customers
and customers using
Municipal District of Fairview No. 136 Water Truck Fill Stations

To support Municipal customers, the MD of Fairview will be offering a 3-month deferral option on water, wastewater, and garbage bills. This includes usage of the Municipal water truck fill stations. Customers will continue to receive their bills as usual. The deferral means the monthly payment requirement and application of penalties are on hold until July 2020. Deferral is not a cancellation of amount owing, but simply putting off the requirement to pay without penalty.

The Municipality suggests that if residents can afford it, they should continue to make payment, but if they find themselves out of work due to COVID-19, the Municipality is offering a deferral as a possible way to assist in this time of financial hardship.

During this deferral period, Council and Administration will continue to evaluate the situation in our Municipality. Visit our website <http://www.mdfairview.com> for updates and please **subscribe** to the Municipal Email List to receive future updates on this and other important Municipal matters that may affect you.
